

# symplr Vendor Credentialing

Easy for you, preferred by vendors.

Healthcare is driven by relationships: when the right people connect at the right moment, it can save time, improve outcomes, and ultimately impact lives. At symplr, we make vendor management as easy as possible by embracing advanced technology, streamlining processes, and crafting the program that best fits your needs.

## Secure, Fast Check-in with symplrPass

symplr's internet-free system with symplrPass check-in technology means no stress for IT and fast access for compliant vendors.

## Mobile app for Admins and Vendors

Administrators easily manage vendor requests; and vendors can check in, make appointments, and update credentials in the app from their mobile devices.

## Quick-View Dashboards

symplr's dashboards make vendor information easily accessible, so your team can quickly assess compliance with facility policies, like COVID-19 vaccination requirements.

## Fully Customizable to fit Your Needs

Every organization is different, so we'll work with you to define the credentials and access levels that are best for you.

## Built-in Background Checks

All symplr vendors undergo annual background checks and OIG compliant healthcare exclusion screening to ensure the safety of your staff and patients.

## Comprehensive Reporting

Whether you need daily reporting at the health system level or quick access for audits, your data is at your fingertips.

## COVID-19 Vaccination Tracking and Reporting

Meet CMS requirements for COVID-19 vaccinations and easily report on compliance of staff and vendors.

## Best-in-Class Support

With dedicated account teams and hands-on vendor support just a phone call, chat or email away, we lead with one-to-one support.
