

TOP CHALLENGES FACING HEALTHCARE SUPPLY CHAIN TEAMS IN 2026

Discover the top pain points and opportunities identified by healthcare supply chain leaders. Nearly 100 supply chain leaders across U.S. hospitals and health systems provided their insights.

BIGGEST CHALLENGES FOR HEALTHCARE SUPPLY CHAINS:

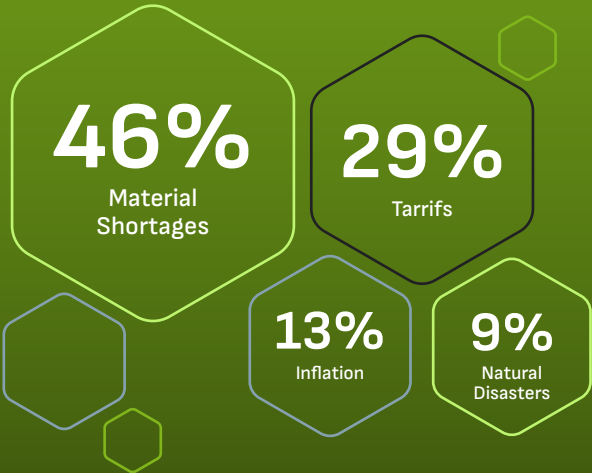

Supply chain disruptions

Cost savings pressures

DUAL CRISIS

Material shortages are the **#1 concern**

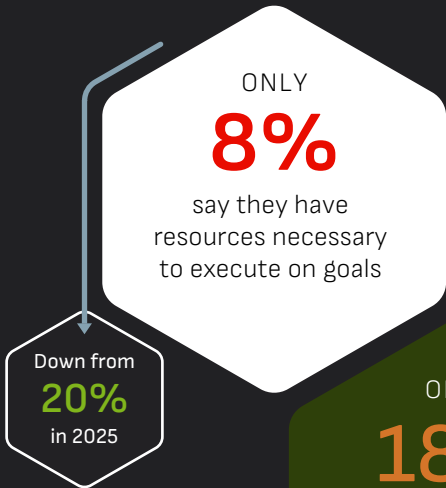

Leaders feel **more pessimistic** about the future:

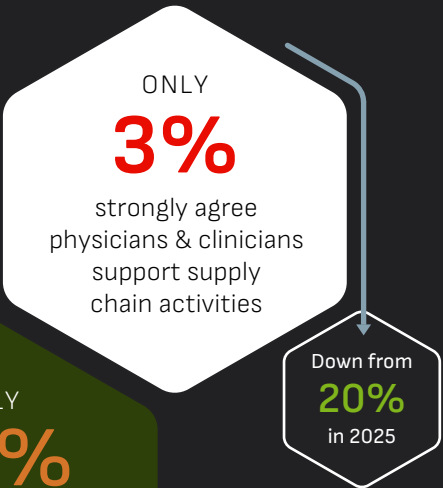

Expectations for supply chain impact are rising faster than confidence in the tools, data, and allies required to deliver

Resource constraints are worsening

Striking drop in perceived clinician support

IMPROVE OPERATIONAL EFFICIENCY
