symplr eLearning Library

Today's healthcare workforce places greater value in skill development and career progression than in job security and stability. Help your employees reach their personal and professional goals by proactively giving them the tools and resources they need to perfect their crafts. The **symplr eLearning Library** can help your teams stay compliant with industry regulations, spark employee engagement, and improve retention rates, making it easier for you to keep and grow the future leaders of your organization. After all, quality care begins with quality talent.

Access a Robust, Curated Catalog

- 8,500+ clinical and non-clinical courses with 3,000+ CE and CME credits available
- Compliance and nursing curricula developed by symplr experts
